

What are colored cable trays

Overview

Colored cable tray systems provide an efficient and highly organized solution for managing electrical and data cabling across a wide range of commercial, industrial, and infrastructure environments. By incorporating color into cable management design, these systems allow for quick visual. Cable Safety and Protection: Good trays shield your cables from getting squashed, cut, or damaged. Each cable tray type performs a different function and comes in various materials such as aluminum, galvanized steel, and FRP.

The image shows a black, rectangular, rack-mountable power supply unit (PSU). It features a cooling fan on the front left side and ventilation slots on the top and back. A yellow label on the right side provides technical specifications:

- Model: WPM1500-12
- Output: 1500W
- Input: 100-240VAC
- Output Voltage: 12V
- Output Current: 125A
- Efficiency: 88%
- Regulation: 0.5%
- Ripple: 10mV
- Protection: OVP, UVP, SCP, OTP, PP
- Dimensions: 150mm x 150mm x 150mm
- Weight: 1.5kg
