

What are some relay protection companies in Central Asia

Overview

Key players in the Asia protection relay market include Siemens, Schneider Electric, and ABB. Arcteq's success story continues as the company expands its network with a new partner from Kazakhstan, Almaenergy LLP, a local EPC company with wide experience in relay protection in the electric power sector, mining, and metallurgical production. Choosing the right relay manufacturer is as critical to your project's success as the component itself. Protective relays are electrical devices that are designed to detect abnormal conditions in power systems and isolate the affected part of the system. It evaluates product launches, technological advancements, and strategic collaborations. Additionally, Schneider Electric actively focuses on making sustainable solutions and combining improved digital capabilities.
