

What is a 48-core optical cable

Overview

A 48 core fiber optic cable contains 48 individual optical fibers within a single protective sheath. It complies with IEC standards for low smoke/zero halogen and EuroClass (Cca or B2ca) for fire protection. This cable can be used for outdoor data communications connections including CATV, telecom trunk and access OS2. Fiber Optic Outside Plant Cable, 48-core, ECSS (Electro Chrome Coated Steel) Armored, Loose-tube, Gel-filled, 9/125 μm , OS2, Singlemode, Black cable jacket Finish making your selections or clear them to view relevant specifications.
