

What is the box for the fiber optic cable connection to the home called

Overview

The box on your wall is called an Optical Network Terminal, or ONT for short. It's a small piece of equipment installed by Openreach, the company that owns and maintains the UK's broadband network, and it acts as the entry point for your Full Fibre broadband connection. There are several lights on the ONT, when these lights change colour or flash, it means something is happening. What is this device for and what is it called?

The device in the image is a fiber optic terminal box, specifically designed for managing fiber optic cables and connections.
