

Where is the fiber optic connector on the telecom router

Overview

That's the port where a cable will attach to carry data from the fiber optic network to your device. The port on your modem or router should be located on the back or the side. TecnoBits - Router - How to connect a fiber optic cable to the router Hello, TecnoBits! ☑☑ Connecting fiber optic cables to the router so that your internet flies like a spaceship! ☑☑ Explore with us on our website! And don't miss our latest news. The fiber line terminates at the Optical Network Terminal (ONT), which is typically supplied and installed by the internet service provider.
