

X520-2 with 10 Gigabit optical module plugged in

EFFICIENT FIELD TERMINATION

No Polishing | No Epoxy

Eliminates cable excess length and pigtail splice storage.
Designed for high-efficiency onsite installation.

X520-2 with 10 Gigabit optical module plugged in

Intel X520-2

I bought an Intel X520-2 10g sfp+ card from Ebay this week. I installed the card into a Windows 10 computer, downloaded new drivers from Intel (version 25), and rebooted.

Question: R730 + Intel X520-DA2 (10gig optical nic) : r/homelab

I'd pick two 10GB MultiMode transceivers from FS - one that works for sure with Ubiquiti, and one that works for sure with the X520, and connect them with an OM3 LC patch cable.
