

Xunte Optical Module

Overview

Xunte communication 25g wavelength division optical module, with its long-term market share and excellent product performance in many public tests, successfully won the "most influential 25g optical module product in 2020" award in the fierce competition. Whether you are creating a 100-Gbps or 400-Gbps, small form-factor pluggable (SFP) module, SFP+ transceiver, XFP module, CFP, X2/XENPAK module. modules, and create human intelligent life! Work hard together to create brilliancecece! It is SFP28 module for duplex optical data communications support 25. We adhere to the management principles of quality first, customer first and credit-based; Since the establishment of the company and always do our best to satisfy potential needsof our customers. We can provide sales of a large number of new or used transmission equipment, servers, communication power systems, routers, base station equipment, switches, SFPs, storage devices, and other communication products. Its headquarters is located in the Mawei Science and Technology Park, Fuzhou City, Fujian Province.

Xunte Optical Module

Fiber Optic Transceiver Module Manufacturer , XtalTQ

XtalTQ is a leading Fiber Optic Transceiver Modules manufacturer, providing high-speed data transmission and reliable performance for modern communication
