

# Yellow Armored Tail Fiber

## Overview

---

TLC's 6 Fiber Singlemode Indoor OFNP Tight Buffered Armored Cable in Yellow is engineered for high-performance fiber optic installations in plenum spaces. This patch cable is armored for maximum strength and durability without sacrificing flexibility or size. This means that it can be used in hazardous areas where more rugged cable is required. Corning MIC® DX armored plenum cables are standard MIC subunits placed inside a dielectric armor for ruggedness and superior crush resistance without the conductive properties of traditional armor. This cable features G657A2 bend-insensitive fiber, passivated metallic cladding stainless steel armor, and a bright. Our Steel Armored Fiber Optic Cable features Rodent Resistant Spiral Steel Armor, 6 strands of OS2 9/125um Singlemode Corning® SMF-28® Ultra core, and a yellow plenum rated jacket.

## Yellow Armored Tail Fiber
