

Zambian OPGW optical cable manufacturer

Overview

Founded in 2022, Uniflex Wires and Cables Ltd (UWCL) was built on a foundation of experience, innovation, and passion to deliver world-class quality products across Zambia and the African region. Equipped with the latest machinery and cutting-edge design, Uniflex is committed to excellence in. In an increasingly connected world, OPGW (Optical Ground Wire) cables have emerged as critical enablers of next-generation power infrastructure, combining lightning protection and grounding functionality with high-bandwidth fiber optic communication. OPGW is mainly applied in communication line of newly constructed high voltage transmit electricity system with 35 KV or above, or replacement of existing ground wire of previous overhead high voltage transmit electricity system, adding of communication lines and conduction of short-circuit current. ZTT has become a professional company which has the biggest OPGW output and has satisfied different customers' requirements with quickest delivery time.

Zambian OPGW optical cable manufacturer

Optical Fiber Composite Overhead Ground Wire (OPGW)

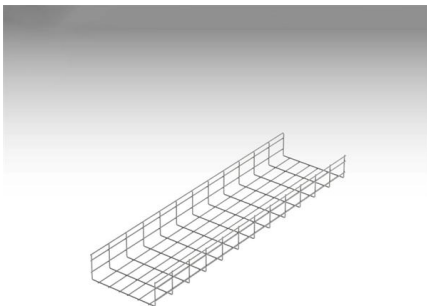

Two or three stainless steel optical tubes are helically stranded in the inner layer of a multiple-layer cable. The multi loose tube type is designed mostly for very high
